

International Shintaido College committee – Final report

International Shintaido College Established in the State of California is Dissolved.

To former and current international Shintaido members this announcement is to inform you that effective 2 October 2019 the entity filed under California nonprofit corporation law known as International Shintaido College has been approved for dissolution by the Attorney General's office of the State of California.

This dissolution was recommended by our attorney to close this entity that was established in the State of California which however did not complete obtaining federal nonprofit status. Debts and liabilities have been paid; California and Federal fees from 2012 to 2019 for \$7,202 and California and Federal penalties from 2012 to 2018 for \$1,726.38. Attorney fees from April 2018 to November 2019 have been paid for \$13,621.10. Postage costs were \$104.35. The balance for ISC was \$3,697.59 with a transfer to International Shintaido on 15 December for 3295.92 euros.

Of course, we wish there were more funds, but the primary focus was to complete this dissolution with the utmost concern that any potential liabilities were resolved.

My deepest personal apology for the costs of this error and my humble admiration for the team who did this work to dissolve the entity known as ISC.

Respectfully submitted,

Connie Borden
